Campaign Automation with n8n

Replacing manual workflows with automation

Presentation by Ashish Kumar

| MANUAL EXECUTION LIMITS PROVEN CAMPAIGN GROWTH

Despite proven campaign success, manual workflows continue to limit consistent deployment across underperforming stores.

“How can we scale a proven campaign strategy consistently across all underperforming stores?”

| OUR PROVEN CAMPAIGN STRATEGY

From previous analysis, we identified the highest-performing campaign, customer segment, and execution timing that consistently delivered the strongest business results.

Campaign 18

-
- +10.8 Sales Growth
 - 278.7% Net ROI
 - +\$15 Incremental Revenue

Best Customer Segment

-
- Age 45–54
 - Income \$50–74K
 - 2 Adults, No Kids

Afternoon Window

-
- 12 PM–6 PM
 - Peak Engagement
 - Strong Conversions

| CAMPAIGN 18 DESIGN & MECHANICS

1. OFFER STRUCTURE

- 15% discount on top 3 purchased categories
- \$25 minimum basket threshold
- 10-day validity period
- 2x loyalty points bonus

2. DELIVERY METHOD

- Digital vouchers (email + mobile app)
- Personalized messaging

3. WHY IT WORKS

- Targets products customers already love
- Basket threshold protects margin
- Urgency drives immediate action
- Aligns with Dunnhumby's proven methodology

| AUTOMATING CAMPAIGN EXECUTION ACROSS UNDERPERFORMING STORES

By replacing fragmented manual processes with automation, we enable faster, more consistent campaign deployment at scale.

n8n Orchestration

- Workflow Automation
- System Integration
- Manual Reduction

FastAPI Logic

- Rule Enforcement
- Target Qualification
- Decision Consistency

Python Engine

- Audience Segmentation
- Store Targeting
- Campaign Precision

Brevo Delivery

- Campaign Deployment
- Customer Outreach
- Scalable Delivery

| SCALING THROUGH PHASED ROLLOUT

A structured rollout approach enables controlled deployment, validation, and enterprise-wide scaling.

Threshold based on the 10.8% uplift achieved in the pilot store.

| INSIDE THE CAMPAIGN EXECUTION WORKFLOW

This workflow schedules, executes, and reports every campaign cycle, without manual intervention.

| BUSINESS IMPACT

What changes when Campaign 18 runs on autopilot, across all 511 stores

Organisations using n8n automation in their campaign strategy to:

1. Reduce manual hours by 80%, freeing teams to focus on strategy and creativity.
2. Launch 3× more campaigns per month without increasing headcount or budget.
3. Achieve 99% campaign accuracy, eliminating data entry errors and missed sends.
4. Cut campaign setup time from 3–4 days to under 2 hours per campaign cycle.
